

Photovoltaic panel Allpowers AP-SP-029-BLA 140W

Photovoltaic panel Allpowers AP-SP-029-BLA 140W

Ref: 5907489609005

Allpowers AP-SP-029-BLA 140W photovoltaic panel

Discover free solar energy to make your daily life easier. The Allpowers AP-SP-029-BLA photovoltaic panel features high efficiency and wide compatibility, so you'll use it to restore power to different types of devices. It has a foldable design that is conducive to transportation, which is also distinguished by its water resistance.

High performance

The AP-SP-029-BLA features very high efficiency. The level power of 140W and efficiency of up to 22% measurably affect the efficiency of operation. This means that the panel significantly distinguishes itself from other products available on the market, offering more stable, free energy.

Wide compatibility

The Allpowers AP-SP-029-BLA provides access to MC-4 (25A Max.), DC (10A) and dual USB ports (5V/2.4 each). This allows you to charge smaller electronic devices, laptops, car batteries (12V) or portable generators. The junction box port allows multiple panels to be connected in parallel.

Thoughtful design

The design of the device has been thought out in such a way as to most effectively affect the comfort of use. The foldable, portable design of the panel guarantees that you can take it with you virtually anywhere. What's more, it fits into the P65 waterproof class, so you can use it even in adverse conditions.

Set includes:

Solar panel
MC-4 - 5.5 x 2.1 mm cable
MC-4 - Anderson cable
MC-4 - crocodile type connector
5 laptop connectors
User's manual
Manufacturer
Allpowers
Model
AP-SP-029-BLA
Solar panel peak power
140W
Efficiency
Up to 22%
Open circuit voltage (Voc)
23.5V
Short-circuit current (IOC)
6.7A
Maximum supply voltage (Vmp)
19.5V
Maximum supply current (Imp)
6.2A
Dimensions (folded)
360 x 650 x 30 mm
Dimensions (unfolded)
1580 x 650 x 5 mm
Water resistance
IP65
Weight
4.75 kg
