

Photovoltaic panel Allpowers AP-ES-004-BLA 21W

Photovoltaic panel Allpowers AP-ES-004-BLA 21W

Ref: 5907489608985

Allpowers AP-ES-004-BLA 21W photovoltaic panel

Equip yourself with a free, portable energy source that will provide you with power whenever you need it. The Allpowers AP-ES-004-BLA features 21W of power, high efficiency and a compact design. Opt for a combination of functionality and convenience.

Efficiency first and foremost

The panel is distinguished by its high power (21 W) and efficiency (about 21%). The ETFE material construction guarantees higher efficiency, water resistance and longevity compared to conventional panels. With Allpowers you choose the best!

USB outputs

The panel offers 2 USB outputs, with which you can replenish batteries, tablets, iPads, smartphones and other devices that support 5V USB voltage. The performance of the panel allows you to charge, for example, 2 smartphones at the same time. It takes about 2-3 hours to fully charge an iPhone 8.

Portable design

The design of the device puts a premium on being able to take it with you virtually anywhere. It's lightweight and relatively small, and the included hooks allow you to mount it on the outside of a backpack, for example. This will give you an easily accessible and

conveniently transportable power source to complement your trip to the mountains, on vacation or on a business trip.

The kit includes:

Solar panel

2 x metal mount (carabiner)

USB cable

Instructions manual

Manufacturer.
