Dareu LM115G Office Mouse

The Dareu LM115G wireless office mouse is perfect for everyday use. It will be perfect for both at work and at home. The 3-step DPI adjustment will allow you to adjust its operation to your needs, and the ergonomic design and light weight of about 70g provide extraordinary comfort of use.

Discover the advantages of a wireless connection

The 2.4G wireless connection guarantees convenience and reliability. Thanks to it, you will enjoy the freedom of movement and stable signal transmission you dream of. You won't be limited by a cable that is too short and snags on other items on your desk. You also do not have to worry about problems with poor quality or loss of connection.

Adjust the mouse sensitivity to your expectations

The sensitivity of the mouse can be adjusted in the range of 800/1200/1600DPI. These are optimal values that will meet the needs of most users. The LM115G will prove to be indispensable in your everyday life. It will allow you to operate your computer smoothly and comfortably - when you are working and when you are browsing the Internet for interesting movies, the most important news or funny pictures.

Enjoy the comfort of use

The symmetrical, ergonomic design of the mouse makes it extremely comfortable to use. The device fits perfectly in your hand and does not strain your wrists - so you can use it for many hours without getting tired. Lightweight and compact - suitable for any office or home.
