

## Smart Camera Petoneer WiFi, 1080p

Smart Camera Petoneer WiFi, 1080p

Ref: 6930460007308

### Petoneer intelligent camera

Want to keep an eye on your pet when you are not at home? Choose the Petoneer camera. The device delivers 1080P HD recordings and supports two-way audio. What's more, it has a motion sensor and automatically switches to night mode. In addition, mounting the camera is no problem and you can pair it with another device using Wi-Fi. While its interesting, colourful design attracts attention.

### Always in touch with your pet

Off to work and worried about what's going on with your pet? The Petoneer camera will solve this problem. You can place the device next to the food feeder to make sure your pet is hydrated or next to its bed to track its activity. What's more, the camera supports Night Vision mode, which means that in low light, LED lights will automatically turn on and illuminate the room.

### Intelligent solutions

The camera uses a motion sensor, so you can turn on recording for the whole day or use the schedule function. In addition, Motion Zone allows you to select the areas where you want the sensor to operate, and the app will send you a notification. You can set up to two areas. This ensures that you don't receive unnecessary messages.

#### High image quality

The product uses 1080P HD resolution, so the image is clear. In addition, the camera is equipped with a micro SD card slot (max. 128 GB), so you can save recordings. Note: the memory card is not included and must be purchased separately. In addition, the two-way audio allows you to say a few words to your pet when it feels lonely.

#### Simple and quick installation

The camera is distinguished by its relatively small design, so it will not take up too much space. What's more, you'll have no problem installing it. You can easily attach it to the desired location, using a sticker, without having to drill into the wall.
