FairyWill F30 irrigator (white).

Now you can take even more thorough care of your oral hygiene. The FairyWill F30 irrigator offers up to 5 modes to choose from and allows you to clean your teeth thoroughly. It removes up to 99.99% of impurities. It comes with up to 6 interchangeable nozzles, so your whole family can use the irrigator. The F30 is also IPX7 waterproof, so you can even use it in the shower.

Thorough cleaning

The irrigator successfully eliminates food debris and tartar, additionally massaging your gums and improving circulation. It can not only clean teeth thoroughly, but also improve their condition. The pulsation technique used, that the jet of water at a pressure of 35-75 PSI reaches even those areas that an ordinary toothbrush will not clean.

5 modes of operation

The irrigator offers up to 5 modes of operation to better meet users' needs. Water pulsing at a rate of 1200 times per minute will effectively clean the mouth. Soft mode will be ideal for those with sensitive gums. Normal is perfect for everyday use. To get rid of tartar, use Potent. Point will be perfect in the fight against various gum diseases. Choose the right one for you!

Capacious water tank

The irrigator is equipped with a large water tank with a capacity of 300 ml. This is enough to allow you to brush your teeth thoroughly without having to refill it. You can easily clean it when needed, thus preventing the proliferation of bacteria.

6 interchangeable nozzles included

You will find as many as 6 nozzles for your irrigator in the set. This way your whole family can use it to clean their teeth. The set includes 3 standard tips, a periodontal tip, a tongue tip and an orthodontic tip. All tips are relatively long, allowing you to reach even hard-to-reach areas of the mouth. Note: to avoid the proliferation of bacteria and maintain hygiene, we recommend replacing the nozzle every 3 months or so.

Long working time

The irrigator's cordless design will give you incredible freedom, while the long-lasting battery for up to 70 days of operation on a single charge! To renew the device's energy, simply plug it in to charge with a USB-C cable. After about 4 hours, it will be fully operational again!

Waterproof

The device is IPX7 waterproof, allowing you to have it with you even in the shower. You can wash the hardware under running water to keep it in good condition for longer.

Lightweight and portable

The device is perfect for traveling - it is extremely lightweight and portable. You can fit it into a backpack or even a bag without any problems! The device fits perfectly in your hand and is incredibly comfortable to use.
