

## Computer Power Supply Aigo GP550 80 Plus Bronze 650W (black)

Ref: 4710343790297

Computer Power Supply Aigo GP550 80 Plus Bronze 650W (black)

### Aigo GP550 80 Plus Power Supply

Opt for an efficient and stable power supply for your computer with the AIGO GP 550 power supply. The unit features a maximum power output of 650W with reduced power consumption. Wide compatibility will ensure that it can be used in various computer environments. Achieving the 80plus Bronze certification means consistent performance at 230V. Compatible with the ATX standard, it is equipped with all necessary connectors and numerous built-in protections guarantee efficient and continuous operation, reducing the risk of damage to your kit.

### High performance - low power consumption

The power supply uses a voltage of 5VSB and an energy-saving chip, ensuring surprisingly low power consumption. It fits into the 80 Plus Bronze efficiency class, which means that it works extremely efficiently, even at maximum load of up to 85% at 230V. It also has a built-in fan that effectively cools the unit - rotating at around 1200 RPM.

### Wide compatibility

The GP550 has a range of outputs, making it characterised by wide compatibility. These include 20+4 pin (x1), P8.4 +4 pin (x1), PCI-E 6+2 pin (x2), SATA (x4) and IDE (x2) interfaces. What's more, the integrated PFC/PWM chip ensures stable and efficient operation, guaranteeing you peace of mind when using your PC and wanting to upgrade in the future.

Manufacturer

Aigo

Model

GP550

Colour

Black

Average power

550 W

Maximum power

650 W

Standard

ATX

Certification

80 plus bronze

Efficiency

85% at 230V and 20% - 100% load

PFC

Active

Protection

OPP, OCP, OTP, UVP, OVP, SCP

Wiring type

Non-modular

Fan size

120x120

Fan speed

1200 RPM

Connectors:

20+4 pin x1, P8.4 +4 pin x1 , PCI-E 6+2 pin x2, SATA x4 IDE x2

Dimensions

140 x 150 x 86 mm

Price:

**€ 64.00**

Gaming, Power Supply, Computer power supplies
