

Neck strap with mount Telesin for sports cameras (TE-HNB-001)

Ref: 6972860178875

Neck strap with mount Telesin for sports cameras (TE-HNB-001)

Telesin neck brace with sports camera mount (TE-HNB-001)

Create a unique first-person perspective shot. The Telesin neck brace is compatible with many models of sports cameras and smartphones. It allows you to conveniently adjust the recording angle with a special adapter. Prepare breathtaking footage while speeding on your bike, kayaking or conquering mountain peaks - you are only limited by your imagination!

Wide compatibility

No matter what equipment you use, it's easy to record original footage from a first-person perspective! The headband is compatible with most models of popular sports cameras such as GoPro, Insta360 or DJI, for example.

Adjust recording angle

Record at any angle with the specially designed adapter. Now you can easily take stunning shots vertically or horizontally - the possibilities are truly vast. The camera can be with you on motorcycling trips, mountain climbing, or even playing with your pet

Convenient operation

The device has a smart button that will streamline its operation. One button is enough to open the equipment and operate it. Also, made of flexible stainless steel with rubber material, it is very comfortable to wear.
