

## Headlight Superfire HL78, 320lm, USB-C

Headlight Superfire HL78, 320lm, USB-C

Ref: 6974760350375

### Superfire HL78 headlamp flashlight

The HL78 will make evening hikes easier, light the way when camping or walking the dog. The flashlight generates light with a brightness of 320 lm and works about 5.5 h on a single charge. In addition, it has another power source - 3 AAA batteries. It offers several modes of operation and 90° adjustment. In addition, its operation is facilitated by a motion sensor.

### Various scenarios of use

The Superfire flashlight will prove useful in various situations. You will use it in the workshop, during evening hikes, running or climbing. It will also find its use on bike rides, camping, or during a sudden power outage.

### Reliable

Going camping and worried that the flashlight will discharge at the least opportune moment? Don't be! The HL78 is equipped with a 1,200 mAh lithium battery that provides about 5.5 hours on a single charge. You'll find a USB-C cable included for easy charging. After about 2 h, the flashlight will be ready for use again. In addition, the flashlight can be powered by 3 AAA batteries (not included), so you can be sure that the HL78 will not let you down.

Customize its operation to suit your needs

With different users' needs in mind, the flashlight is equipped with several operating modes. Choose between high/low brightness, red light or white/red strobe. All you have to do is press the power button. In addition, you can adjust the angle of the light up to 90° to further customize its operation.

#### Thoughtful design

For even more convenient operation, the flashlight is equipped with a motion sensor - just bring your hand close to the HL78 to turn it on. Moreover, it is IP44 water resistant, so you can use it in rainy weather without worry. What's more, the ABS plastic finish is responsible for its durability and ability to withstand drops of up to 1m.
