Memory card SANDISK EXTREME microSDXC 64 GB 170/80 MB/s UHS-I U3 ActionCam (SDSQXAH-064G-GN6AA)

SANDISK EXTREME microSDXC 64 GB 170/80 MB/s UHS-I U3 memory card (SDSQXAH-064G-GN6AA)

The SanDisk Extreme® microSDXC™ benefits from blazing speed for near-instant data transfer, smooth app performance and 4K UHD video. The card is perfect for Android™ smartphones, sports cameras and drones. It guarantees high performance and allows you to record videos in 4K UHD and Full HD and take high-resolution photos. The card reads data at a stunning speed of up to 170 MB/s and writes data at speeds of up to 80 MB/s. Fast application performance is ensured by the A2 performance class, making your work more convenient.

Short data transfer times

To streamline your work, the SanDisk card guarantees high read speeds of up to 170 MB/s and allows you to transfer 1,000 high-resolution photos and 30 minutes of 4K video (24 GB) in just 3 minutes! However, that's not all! The write speed reaches 80 MB/s, which will help you record 4K UHD videos and photograph even very fast-moving objects. Working has never been so easy!

Record 4K UHD and Full HD videos

Are you going on a weekend trip? Or maybe you are covering sports events! SanDisk card will allow you to record without losing even a single frame! High capacity and speed class UHS 3 (U3) and Video Speed Class 30 (V30) will allow you to record Full HD and 4K UHD videos without interruptions and noise.

Faster performance

The SanDisk Extreme® microSD card features Class A2, which translates into more efficient application performance, making using your smartphone much more convenient and enjoyable.

The durability you need

SanDisk Extreme® microSDHC™ and microSDXC™ UHS-I cards are designed to withstand shock, water, temperature and X-rays. Now you can have more amazing adventures without worrying about damage to your card!
