

Wireless IP Camera Blurams A11C

Wireless IP Camera Blurams A11C

Ref: 6972127490795

Blurams A11C wireless outdoor IP camera

Take care of the security in your home. The Blurams A11C wireless outdoor camera offers high-resolution 2K video, and allows you to get color monitoring at night. It supports 2-way audio, and when it detects any movement, it will send you an appropriate notification immediately. The device is IP66 waterproof and dustproof. It is also distinguished by its compatibility with Google Assistant, Amazon Alexa, Siri and IFTTT.

Wireless operation

Say goodbye to unnecessary cables. The camera is equipped with a long-lasting battery, so it works wirelessly. So you can mount it anywhere, whether at home or outdoors. What's more, the device connects to your phone via Wi-Fi. Bet on wireless solutions and enjoy freedom!

Free use of the cloud

Don't be afraid of losing your most important recordings. Along with the camera you get free access to the cloud, where footage will be stored for 24 hours. So if you need to, you can review them at any time and see what was happening around your home recently. With Blurams you have everything under control!

High image quality

No more low quality recordings. The A11C camera captures images in high 2K resolution - now you can easily recognize the people you see in the surveillance footage! The device will also work perfectly after dark. Thanks to 4 built-in 850nm IR LEDs, the camera allows you to record in color even at night. It also provides clear images at longer distances. Nothing will escape your attention anymore!

You will know about everything immediately

Don't miss anything important. The A11C intelligently detects motion and sounds. This means that if someone shows up in your home or garden who shouldn't be there, you'll know about it immediately - the device will send you a notification to your phone. Convenient management of the camera is enabled by a dedicated Blurams app. The product is also compatible with Siri, Google Assistant and Amazon Alexa, so you can control it with voice commands. With just a few words, you'll be able to see images from your garden or garage!

Works well in all conditions

The Blurams A11C camera will work perfectly both indoors and outdoors. It is not intimidated by harsh weather conditions - it is distinguished by waterproof and dustproof IP66. Rain, sun, cold or heat pose little threat to it. The device is also very easy to install - simply place it on any flat surface or attach it to the wall.

2-way audio

The product also supports 2-way audio. To use this feature, just download the app! This allows you to conveniently give some information to a courier, greet guests, warn a possible intruder or contact loved ones who are at home. Find out how convenient it is!
