Ultrasonic humidifier Deerma F600 black

Ref: 6955578040467

Deerma F600 ultrasonic air humidifier

With the F600 you will get the optimal level of air humidification in your home and take care of the health of yourself and your loved ones. The device has a capacious water tank (5l) and allows you to adjust the degree of air humidification according to your needs. A touch panel with a display will provide you with information on the operation of the device, and a schedule function will allow you to personalize the operation of the F600. In addition, the stylish, modern design of the device will blend into almost any interior and will be a unique decoration of the room.

Reliable help in taking care of your well-being

Very many factors affect your health - these include temperature and air humidity. It is worth being aware of this and taking care of optimal conditions in the places where you stay most often. A Deerma humidifier will enable you to do this - with its help you will ensure a healthy, properly humidified environment in which you will spend your time pleasantly and safely.

Designed especially for you

Thoughtful design of the humidifier makes it extremely effective and safe at the same time. A special coating effectively prevents contamination and bacterial growth. So you can be sure that the released water mist is perfectly purified and safe for health.

Surprisingly simple operation

Operating the humidifier is remarkably simple. All you have to do is pour water into the special tank, screw the cap on and press the on button. That's all it takes to enjoy humidified air! You also don't have to worry about the need for frequent water changes - the capacity of the tank is as much as 5 l, which allows for several hours of intensive work. You only need to refill the water once a day!

Quickly check the information you are interested in

Operation of the device is facilitated by a smart touch panel with a digital, eye-friendly display. With it, you can check the room temperature in real time. You can also select the humidifier mode you are interested in. The touch panel will delight you with the sensitivity of the buttons - their response time is really lightning fast.

Humidifier customized from you

You can easily adjust the Deerma F600 humidifier to your needs. When you go to bed, you can turn on night mode, which will turn off the display - unnecessary light won't disturb your sleep. You also have the option to set a schedule for the device to run for up to 12 hours - the humidifier will automatically turn off after the set time. You can also decide on the power of the sprayed mist. Freely switch between the three available levels and adjust the amount of water distributed to your preference. Deerma F600 gives you a lot of possibilities - try them all!

Relax

This is not the end of the Deerma humidifier's advantages. The device is equipped with a special drawer, to which you can add a few drops of your favorite fragrance oil. Thanks to this you will fill the room with a pleasant aroma and take care of your well-being.

Universal design

What else characterizes the Deerma F600 humidifier is its minimalist, stylish design. The device is made of durable ABS plastic, and its smooth surface makes cleaning no problem. Hidden under the lid of the humidifier, a convenient handle allows you to carry the water tank freely - for example, to wash it. A transparent water level indicator allows you to quickly see how much water is left and whether you need to refill it soon. With its black and gold finish, the Deerma F600 can become an elegant and practical addition to any interior. It will certainly find its way perfectly into your home as well!
