

Car charger Vipfan C02, USB, 18W, Quick Charge 3.0 (black)

Ref: 6971952433748

Car charger Vipfan C02, USB, 18W, Quick Charge 3.0 (black)

Vipfan C02 car charger (black)

The handy Vipfan C02 car charger is equipped with a USB port and is compatible with the QC3.0 fast charging protocol. The universal 12-24V input voltage makes the charger suitable for most popular cars and trucks, while the built-in smart chip automatically adjusts the current to the devices being charged, ensuring their safety.

Safe energy renewal

The Vipfan C02 charges at a maximum power of 18W, thus renewing the energy of needed devices in a short time. Another advantage is the built-in smart chip, which automatically recognizes the connected equipment and adjusts the optimal current to it. So you don't have to worry about the safety of your smartphone or tablet.

Elegant and robust

The Vipfan C02 car charger maintains a stable position even on bumpy roads. Its casing is made of non-flammable materials, which increases the safety of use, moreover, the use of PC guarantees high resistance to mechanical damage.
