

Car charger Vipfan C07, USB, 5A (silver)

Car charger Vipfan C07, USB, 5A (silver)

Ref: 6971952431621

Vipfan C07 car charger, USB, 5A

With the Vipfan charger you will quickly renew the energy of your device. The product is compatible with most models of smartphones on the market. It adjusts the voltage to the device and has been equipped with protection against various types of damage. In addition, being made of aluminum alloy gives C07 durability.

Fast charging

Are you in a hurry to get to work and forgot to charge your phone? Or maybe you have a long trip ahead of you and need to be on the phone? The Vipfan charger will solve this problem. The C07 model works with such fast charging protocols as QC3.0, AFC, VOOC or SCP/FCP, so you don't have to worry about compatibility issues.

Safety

The product is designed to be safe to use. The use of smart solutions prevents the device from overheating, and a special chip matches the voltage to the connected device. In addition, being made of aluminum alloy translates into durability of the product.
