USB to Micro USB cable Vipfan Nano Gold X07, 3A, 1.2m (black)

Ref: 6971952432550

USB to micro USB cable Vipfan Nano Gold X07

Ensure that you can charge your devices and transfer files quickly. The Vipfan X07 cable provides an output current of up to 3A and allows you to enjoy high data transfer speeds. It is equipped with gold-plated connectors and is extremely durable. Its length is 1.2m.

Fast charging - fast file transfer

The cable is equipped with a core made of 100% pure copper. As a result, it allows fast and stable charging of devices with up to 3A. No more prolonged waiting until your phone is ready to work again! The product also allows you to transfer files in a short time.

Improved design

The product is equipped with gold-plated connectors, and its most vulnerable areas have received additional protection. The nylon braid gives it greater strength and resistance to bending, pulling or breaking. All this means that the X07 cable will serve you well for a long time.
