

Headlamp Superfire HL75-X, 220lm, USB

Headlamp Superfire HL75-X, 220lm, USB

Ref: 6974760350757

Superfire HL75-X headlamp flashlight

Lightweight and handy, the Superfire HL75-X headlamp provides effective illumination and high comfort for evening jogging, workshop work or fishing. It generates even light with a brightness of 220 lm and a range of 120 m, plus it offers 7 modes of operation and has a motion sensor. It also has the advantage of being able to adjust the position of the lamp and is IP44 waterproof.

Stable lighting

No matter what you're doing or where you are - the Superfire HL75-X headlamp will provide you with stable, even illumination with a brightness of 220 lm. You can take it on an evening bike ride or under a tent, and the device will provide you with intense light with a range of up to 120 m.

Adjustable design

The Superfire HL75-X headlamp is extremely lightweight and comfortable. The product weighs only 55 g, moreover, it has an adjustable headband - so you can easily adjust it to your individual needs. That's not all! You can change the position of the lamp in a range of 45° to direct the light beam exactly on what you want to see.

7 operating modes

The flashlight offers up to 7 operating modes, so you can use it in many different situations. At your disposal are Low, Medium and Strong modes, as well as Strobe, during which the bright light flashes at a high frequency. You can also choose from Red Light, Red Strobe Light and SOS mode, which will allow you to call for help in an emergency.

Powerful power supply and motion sensor

The device is equipped with a long-lasting battery that provides up to 3 h of operation on a single charge. Convenient power renewal is also a plus, and special light indicators will inform you of the charging status. This is not the end of the advantages of the HL75-X flashlight - the product has a motion sensor, thanks to which you will activate the device by a simple movement of your hand.
