Havit MP860 gaming mouse pad

The Havit MP860 gaming mouse pad offers enough space not only for your mouse, but also for your keyboard. It is made of a mesh fabric that is extremely durable and ensures precision movements. It's also partially waterproof and non-slip - it won't slide on your desk surface. Thanks to its stitched edges, its lifespan has been significantly extended. Numerous tests have proven that the graphics on the mouse pad do not affect the mouse performance.
