

## Powerbank Romoss Sense 4S Pro 10000mAh, 30W (white)

Ref: 6936857200970

Powerbank Romoss Sense 4S Pro 10000mAh, 30W (white)

Powerbank Romoss Sense 4S Pro 10000mAh, 30W (white).

Looking for a handy yet highly functional powerbank? The product charges at 3A, while the USB-C output/input and two USB outputs allow you to renew the energy of three devices at the same time. With a capacity of 10000 mAh, the powerbank allows multiple charging, and its small size makes it easy to transport - you can even take it on a plane.

### Sizable capacity

The Sense 4S Pro is equipped with a lithium-ion battery with a capacity of 10000mAh. Such capacity allows you to charge your device multiple times. You will charge the Iphone 13 Pro 1.4 times, the Iphone 13 - 2 times, the Xiaomi 12 - 2 times, and the Ipad once. To refill the powerbank again, you need 2.3 hours.

### Fast charging

The powerbank supports 30 W PD fast charging. You can charge your Ipad Pro to full in just 1.1h (PD30W), your Iphone 13 will charge to 60% in just 30 minutes (PD20W), and your Iphone 12 to 50% (PD18W). Compatible with QC3.0/2.0, MTK PE, Samsung FastCharger, Huawei FCP, Apple 2.4(A) and other fast charging technology standards.

### Charge three devices simultaneously

The powerbank has three outputs, allowing you to charge up to 3 devices simultaneously and save time in the process. One of the ports allows for 3 A charging, so your phone will renew energy at lightning speed. The Sense 4S Pro also has 3 inputs: micro-USB, Lightning and USB-C. So you'll charge the powerbank using one of the most popular cables you're sure to have in your home.

#### Thoughtful design

The device is extremely lightweight and compact. It is characterized by its small size and light weight (245 g), which allows you to carry it with you at all times. In addition, the minimalist design will appeal to almost any user.

#### Safe use

The Sense 4S Pro offers a number of different safety features. The powerbank protects against overcharging, high voltage, short circuit, electromagnetic field and harmful temperature effects. This way you don't have to worry about damaging your smartphone or tablet.
