Romoss Powerbank PEA40PF 40000mAh, 22.5W (black)

No more waiting indefinitely for your smartphone to charge. The Romoss Powerbank allows you to charge 3 devices simultaneously, saving you time. It also supports fast charging protocols, and the LED display will provide you with the most important information about the device's operation. What's more, the PEA40PF is equipped with a number of safety features, so you can be sure that its use is safe.

### Reliable

The Romoss powerbank will prove itself in a variety of situations. You can take it on vacation, on a trip, to the university or to work. You will also successfully use it when recording live broadcasts, vlogs or during a sudden power outage. Moreover, the 40000 mAh capacity allows you to use the PEA40PF on a single charge for as long as 10 days. This is enough to charge the Vivo X9 about 8 times, and the Huawei P10 about 7 times.

### Fast charging

The Romoss powerbank supports such fast charging protocols as PD, FCP, SCP, AFC or QC, so you'll quickly renew your device's power. It only takes about 30 minutes to charge a Huawei P40 to 60% and an iPhone 13 to 55%. In addition, it has ports such as USB-C and x2 USB, so you can charge 3 devices simultaneously. On the other hand, if you want to charge the PEA40PF, use the micro USB, Lightning or USB-C ports. After about 12 hours, it will be ready for further use.

#### A range of security features

Use the PEA40PF and rest assured that your device is safe. The Romoss powerbank is equipped with as many as 10 safety features, including over-discharge, over-charging, over-voltage, short circuit, reverse polarity, etc. So you don't have to worry about damaging your equipment.

#### Thoughtful design

The PEA40PF is equipped with an LED display that will provide you with information about the device's operation. With just a glance, you can check the battery level, amperage and voltage. In addition, the matte finish makes the powerbank fit perfectly in your hand and look great.
