Speaker Tribit XSound Go BTS20 bluetooth (black)

Tribit XSound Go BTS20 Speaker (black)

Equip yourself with a speaker that you can take with you virtually anywhere! The Tribit XSound Go BTS20 features a compact, waterproof design and long runtime. It generates crystal clear, detail-saturated sound of your favorite songs.

High quality sound

The speaker is equipped with 2 40-millimeter drivers and a passive radiator, so it generates high-end sounds. Play your favorite playlists, enjoying the depth of bass and high saturation of details - wherever you are!

Bluetooth 5.0

Feel the convenience of wireless solutions and equip yourself with a device that will allow you to play music or audiobooks in comfort. The BTS20 uses a powerful Bluetooth 5.0 module, which features low susceptibility to interference and low power consumption.

Efficient power supply

The speaker draws power from a durable 4400 mAh battery that provides up to 24 hours of operation - the equivalent of listening to about 500 songs on a single charge! You can conveniently top up the energy via the included cable, and the whole process will take about 4 hours.

Thoughtful design

The design of the device supports the convenience of use in almost any environment. Its compact size allows you to take it with you virtually anywhere. What's more, the IPX7 waterproof rating ensures that it can be used even in adverse weather conditions. You'll also get a wrist band included to make it easy to carry the device.
