

Electric shaver with interchangeable head Kensen

Electric shaver with interchangeable head Kensen

Ref: 6953156300538

Kensen electric shaver with interchangeable head

Use the Kensen electric shaver to trim your beard quickly and precisely. The device is equipped with a movable blade grid and you can use it both dry and wet. In addition, it has a water-resistant head and works quietly. It is suitable for depilation of the entire body.

3-in-1 head

The shaver is equipped with a head that has a movable blade grid, making it ideal for a variety of applications. You will use the device to shave your beard, bikini line, armpits or legs. In addition, the thoughtful design prevents cuts and ensures precision.

Water-resistant

The shaver head is IPX6 water-resistant, so you can safely clean it. This will help prevent the proliferation of bacteria and extend the life of the device.

Lightweight design, quiet operation

Another advantage of the Kensen shaver is its lightweight and compact design. The device weighs 165 g, making it lighter than a smartphone. What's more, it works quietly, so it won't make an annoying noise.
