

5-in-1 electric shaver with 7D head Kensen

5-in-1 electric shaver with 7D head Kensen

Ref: 6953156300736

Kensen 5-in-1 electric shaver with 7D head

Opt for functionality as well as convenience and choose the Kensen electric shaver. It comes with interchangeable heads, so you can shave your beard, trim your hair, clean your face, get rid of nose hairs and give yourself a facial massage with one device.

Precision

The 7D rotating heads precisely follow the shape of your face for precision. In addition, the self-grinding blades ensure performance and long life. What's more, the head is IPX6 water resistant, so you can conveniently clean it and prevent bacterial growth.

For a variety of applications

The device from Kensen will work well for more than just shaving. It will allow you to trim hair, clean your face, remove nose hairs and even provide a facial massage - just attach the appropriate tip. In addition, in the package you will find comb attachments in 3 different lengths: 3/5/7 mm, so there's something for everyone.

Thoughtful design

The Kensen electric shaver is distinguished by its ergonomic design, so you can use it comfortably. In addition, the non-slip finish provides stability, so you don't have to worry about the device falling out of your hand. What's more, it has a travel lock, so it won't turn

on during transport.

LED display

The Kensen electric shaver is equipped with an LED display, which will provide you with information about the operation of the device. With its help you will learn about low battery level, the need to clean the shaver and the travel lock activated - just by taking a glance.

Convenient charging

The device has a 600 mAh battery, which translates into about 90 minutes of use on a single charge. When the need arises, you can charge the shaver in 2 h with the included cable. You can connect it to a power source via a wall charger, computer, laptop, powerbank or car charger.
