Wireless projector HAVIT PJ207 PRO (white)

HAVIT PJ207 PRO Wireless Projector / OHVIT Projector (white).

Portable cinema at your fingertips! HAVIT PJ207 PRO supports 4K quality and features a high contrast ratio. The product is so compact and handy that its storage, and possible transportation will not cause you any problems. The product uses WiFi, which allows you to synchronize the image. It supports stereo sound, for even better immersion during gaming, and its operation is surprisingly quiet.

Thoughtful design

The PJ207 PRO features a thoughtful design. A low weight of just 460.6 grams, it allows you to transport the projector conveniently and store it effortlessly. Enjoy the freedom of a Havit brand projector!

Android TV 9.0

The HAVIT PJ207 PRO projector, is compatible with Android TV 9.0, so you can project your favorite game on the big screen and get the ultimate entertainment experience. What's more, you can use the projector to watch movies from Netflix or YouTube and use many other popular apps.

Excellent image quality

The wireless projector supports 1080 p HD resolution. It features a resolution of 1280 x 720 p and a projector brightness of 110 ANSI

lumens. The solutions used ensure excellent image quality, richness of details and excellent color reproduction. The device allows you to perform trapezoidal correction, so you will eliminate errors made when setting up the projector.

Image synchronization

The PJ207 PRO allows you to connect wirelessly to your smartphone or tablet, which is a great option for all gamers. You don't need any additional receivers, just a WiFi connection to sync the two images.

Wide compatibility

The device is equipped with ports; HDMI, USB, AV and 3.5mm AUX. This makes the projector stand out for its wide compatibility and you can easily connect it to your computer, PS4 console, TV and many other devices.

High-quality sound

The product features HIFI stereo sound, which ensures clear sound and extraordinary immersion while playing your favorite games. In addition, the PJ207 PRO operates extremely quietly, not exceeding 28 dB.
