

Smart plug WiFi Gosund SP112 2xUSB, 16A, Tuya

Smart plug WiFi Gosund SP112 2xUSB, Tuya

Ref: 6972391280030

Operate wherever you are

The Gosund SP112 is a smart socket that has an EU plug and two built-in USB ports. Through the app, we can control lighting or other household appliances, directly from the app on our smartphone. Using the Smart Life app (Tuya app) (free to download on Android and iOS). After connecting the product to a local network and adding it to our app, we can control it from anywhere on earth where we have internet access. The device works with the latest systems: IFTTT, Amazon Alexa and Google Assistant.

Easy to use

The Smart Life application is available in Polish, in addition to the standard switching on and off of devices, it also offers the creation of schedules for individual devices, so it can automatically turn on and off connected devices at specific times. Gosund devices work only in 2.4GHz WLAN networks. Thanks to the application, you can schedule the operation of devices in your home (including lamps) so that they simulate the presence of an inhabitant, which can deter a potential burglar.

Robust design

The Gosund SP112 plug is made of the highest quality materials. It is ROHS and CE certified, the housing is safe and fireproof. Two USB sockets of 2.1A each are built in. The SP112 socket has a pin hole.
