

Wireless Ergonomic Mouse Delux MV6 DB BT+2.4G (black)

Ref: 6938820410928

Wireless Ergonomic Mouse Delux MV6 DB BT+2.4G (black)

Delux MV6 Wireless Vertical Mouse

Equip yourself with a mouse that makes your daily computer work easier while emphasizing proper wrist and radius bone positioning. The Delux MV6 Vertical Mouse also offers 3 ways to connect to your computer, adjustable DPI and a powerful optical sensor.

Performance first and foremost

The mouse is equipped with a PAW3212 optical sensor, which features smooth, precise operation. What's more, the device allows you to adjust the DPI level in 5 degrees - 800 / 1200 / 1600 / 2400 / 4000. Thus, you will adjust its operation to your needs and expectations.

3 connection possibilities

You will connect the MV6 model to your computer using either a cable or wirelessly. The latter option is possible thanks to the use of Bluetooth module or the included 2.4G adapter.

Thoughtful design

The vertical mouse supports the correct positioning of the wrist and radius bone. As a result, you don't expose yourself to discomfort and injury - even during long sessions. What's more, the stylish and minimalist design with backlighting highlights the visual qualities of the equipment.
