

Smart Bulb LED NiteBird WB4 (RGB) E27 Tuya

Ref: 6972391280054

NiteBird WB4 (RGB) E27 Tuya smart LED bulb

WB4 from NiteBird is a smart LED bulb with an E27 thread. It gives up to 800 lumens of light and has a life of about 20,000 hours. It also allows you to choose from 16 million colors and adjust the brightness and color temperature of the light. What's more, remote control via an app makes it easy to use, and the scheduling function is an added convenience. In addition, you can easily operate the bulb with voice commands - it is compatible with Amazon Alexa and Google Assistant.

Operate wherever you are

Directly through the Gosund or Smart Life app (Tuya App), we can turn the light on/off, adjust its brightness, color temperature and color, as well as schedule different operating scenarios. There are also several smart scenes to choose from. After connecting the product to a local network and adding it to the app, we can control it from anywhere on earth where we have internet access. The device works with the latest systems: Gosund, IFTTT, Amazon Alexa and Goggle Assistant.

Easy to use

The Gosund Smart Life app is available in Polish, and in addition to the standard switching on and off of devices, it also offers scheduling, so connected bulbs can automatically turn on and off at specific times. You can also program the WB4's operation in your home to simulate the presence of an occupant, making it easier to deter a potential burglar. It is also possible to synchronize the devices with

music - perfect for a party! The NiteBird equipment works only on 2.4GHz WLAN networks.
