Enjoy high-speed file transfer without the need to connect via Wi-Fi. Created with the Insta360 X3 in mind, the Quick Reader can act as the camera's external memory - just insert a microSD card (not included). This ensures that you won't run out of space for your videos! When you're done recording, connect the accessory to your phone and conveniently copy selected footage. The camera doesn't need to be turned on at that time, which will help you save its battery power. The Quick Reader supports Plug&Play and provides a fast, stable connection. What's more, it is equipped with 2 connectors - USB-C and Lightning, which means it is compatible with Android and iOS devices. Now uploading and editing content will become even easier!
