Shadeless tent 40cm Puluz PU5140

Experience how simple and fast it is to take perfect photos of objects. The Puluz lighting tent is used to create high quality, shadow-free photographs of a variety of objects. The whole kit is ready to go right out of the box and takes just a few minutes to assemble. It is handy, so we can use it both outdoors and at home or in the office. The product will meet the expectations of even the most demanding users. You do not need any additional accessories to create your shots - all you need is your camera or smartphone.

Many benefits

The shadow-free tent features a handy design when folded up, so storage is not a major problem. Assembly of the tent is simple and takes very little time. The tent has no strobe effect, has a high brightness and distributes heat very well.

Versatility

The tent has an opening top cover, so that you can also take photos from above. You will also find photographic backgrounds in different colours in the kit, so you can easily adapt the colour scheme to your specific product.

Easy assembly

The simple and compact design allows the tent to be set up in just a few minutes. The included carrying case will make transporting the

tent easy, as well as protecting it from dirt or damage.
