Case Nillkin Super Frosted Shield Pro for Apple iPhone 14 Pro (black)

Nillkin Super Frosted Shield Pro Magnetic Case for Apple iPhone 14 Pro (black)

Want even better protection for your smartphone from damage? Created with the iPhone 14 Pro in mind, the Super Frosted Shield Pro Magnetic Case is made of durable TPU and PC materials, so it can provide comprehensive protection. It stands out for its scratch and wear resistance, and no unsightly fingerprints remain on it. At the same time, it does not affect the comfort of use of the phone - special cutouts offer convenient access to ports, speakers and buttons. The case also has a built-in magnet.

Even more effective protection

With Super Shield Pro you can protect your phone from damage even better. Different types of materials were used to make the case - its back part was made of hard PC, and the edges were made of soft TPU. Thanks to this, the smartphone placed in it will be effectively protected from shocks, bumps or scratches. Moreover, the accessory provides additional protection for the phone's corners and its cameras.

Anti-slip surface with UV coating

Enjoy a more pleasant use of your smartphone. Thanks to the non-slip surface, the case will lie well in your hand, guaranteeing a secure grip. Don't worry about your phone falling out of your hand! In addition, a special UV coating increases the resistance of the accessory to scratches. Fingerprints or dust will also not be visible on the surface of the case. As a result, the product is less prone to wear and tear

and easier to clean.

Perfect fit

Take care of the security of your smartphone without sacrificing comfort of use. The accessory perfectly fits the shape of your phone, and thanks to special cutouts it provides easy access to its buttons, ports and speakers. So you can comfortably charge your device and use all its functions. Putting on and taking off the case will also not cause you any problems.

Built-in magnet

Also noteworthy is the built-in magnet, so you can conveniently charge your phone wirelessly, using the MagSafe charger. You don't have to take your smartphone out of the case! The product also allows you to use magnetic holders without any problems. Now nothing limits your possibilities anymore!
