

Wall charger LDNIO A3510Q, 2x USB + USB-C, PD + QC 3.0, 32W

Ref: 6933138691052

Wall charger LDNIO A3510Q, 2x USB + USB-C, PD + QC 3.0, 32W (white)

LDNIO A3510Q wall charger

LDNIO A3510Q charger allows you to connect 3 devices simultaneously and supports fast charging. It stands out with a maximum output power of up to 28.5W. Lightweight and portable - you will also successfully use it while traveling. The product also features wide compatibility and durability. At the same time, it ensures the safety of use.

Even faster charging

Now you can restore energy to your equipment in a short time. The charger supports such fast charging protocols as PD 3.0 (USB-C port, 18W) and QC 3.0 (USB port, 18W). This means that it only takes about 30 minutes to charge a smartphone to 70% or 50%, respectively. That's up to 2.5 times faster than with regular chargers! In addition, the A3510Q intelligently detects connected devices and adjusts its operation accordingly.

Charges up to 3 devices simultaneously

With 3 available ports (2x USB, 1x USB-C), the product allows you to charge up to 3 devices at the same time with a total power of up to 28.5W. You no longer need to occupy additional outlets - just one charger is enough to restore power to more devices! In addition, the A3510Q features compatibility with many models of smartphones and tablets from well-known brands.

Improved design

This practical charger will serve you well for a long time. It was created from fire-resistant PC plastic and is extremely durable. It also has special copper and aluminum components that ensure efficient heat dissipation and protect your device from overheating. The charger is also equipped with a number of safety features, including short circuit and overcharging protection.

Portable

LDNIO A3510Q charger can accompany you almost anywhere. You will find it useful not only at home, but also, for example, at work or on a foreign vacation. It is extremely light and compact - it will easily fit into your bag or backpack. What's more, the device is compatible with 100-240V, so you can use it in many countries around the world.
