Temperature sensor Sonoff DS18B20

Ref: 6920075778069

Sonoff DS18B20 temperature sensor

The Sonoff DS18B20 is a hermetic probe-shaped temperature sensor that allows you to measure temperature from -55°C to 125°C. It has an RJ11 4P4C connector and you can connect it to the Sonoff TH Elite and TH Origin controller. The device is waterproof, moisture-proof and rust-proof, thanks to the use of high-quality stainless steel in production.
