

IP Camera Sonoff S-CAM Wi-Fi

IP Camera Sonoff S-CAM Wi-Fi

Ref: 26227

Sonoff S-CAM IP camera

Want to monitor your home no matter where you are? The Sonoff S-CAM IP camera comes to the rescue! The device supports 2-way audio and works with Amazon Alexa and Google Assistant voice assistants. It offers clear 1080p HD video. It also allows you to connect with other Sonoff equipment. Records up to 5-minute videos when motion is detected. It allows you to store footage on a micro SD card of up to 256 GB or in the eWeLink cloud. You'll also find a Sonoff USB power adapter included.

Excellent image quality

The Sonoff camera offers high-quality 1080p HD video. It will also work great after dark - it has IR LEDs that emit infrared light, which provide clear images with a range of 10m even at night. You can seamlessly watch what's going on in your home on your computer screen, thanks to the RTSP protocol.

Motion detection

Increase security in your home. Using the app, you can specify the times when the alarm will sound when motion is detected. You can also connect the camera to other Sonoff devices and guarantee even better protection - when you connect them, the recording will start at a specific time, such as when the light is turned on! What's more, when the camera detects motion, it will record a video with a maximum length of 5 minutes - you will no longer miss any event, while you are away from your apartment.

Control the camera by voice

The device works with Amazon Alexa and Google Assistant, so you can conveniently control it with your voice. With just a few words, you can check what's going on in your child's room or garage! In addition, the camera has a built-in speaker and microphone, which will allow you to talk freely with your loved ones, even when you're not at home!

Multiple storage options for your footage

The S-CAM is equipped with a slot for a micro SD memory card with a maximum capacity of 256 GB. You can also securely save videos to the cloud on the eWeLink app - a 30-day free storage trial is available.

4 mounting methods

Mount the S-CAM wherever you want - its installation should not cause you any problem! You can easily mount it in as many as 4 ways - with screws, magnetic mount, sticker or tripod. Attach it to the wall or the front door without any problem - the decision is up to you.
