

Wireless Gaming Controller iPega PG-SW062C Nintendo Switch

Ref: 6974363710422

Wireless Gaming Controller iPega PG-SW062C Nintendo Switch

iPega Nintendo Switch Wireless Controller/GamePad PG-SW062C

Take your gameplay to the next level with the iPega PG-SW062C. The controller is equipped with 2 vibration motors and a 6-axis gyroscope, for greater immersion. What's more, the built-in buttons stand out for their high sensitivity, and the TURBO function will give you an edge. Moreover, it stands out for its wide compatibility and connects to your device via wired or Bluetooth 5.0.

Immerse yourself in the world of gameplay

The GamePad has built-in vibration motors that are synchronized with on-screen events, so you can enjoy even more immersion. What's more, the 6-axis gyroscope ensures precision and accuracy. Now you can defeat your opponent with ease!

Thoughtful design

The iPega PG-SW062C controller features an ergonomic design for greater user comfort. What's more, the built-in buttons feature high sensitivity for precision, and the TURBO function will let you beat your opponent with ease.

Wired or wireless

You can connect the GamePad to your computer or laptop using a cable with a USB-C port. On the other hand, Bluetooth version 5.0 allows you to connect the controller to, for example, Nintendo Switch. What's more, the signal range is 10m max.

Compatible

Worried that the controller won't work with your hardware? Don't be! The iPega PG-SW062C is compatible with Android or iOS operating systems. You will also connect it to your computer, laptop, Nintendo Switch, PS3 and Android Smart TV.

Durable battery

The iPega PG-SW062C wireless controller has a 400 mAh battery, which translates to about 8 h of operation on a single charge. In addition, it stays in standby mode for up to 30 (if the battery is fully charged). On the other hand, you will renew the device's energy with the included USB-C to USB-A cable. Just 2 h of charging is enough to get the controller ready for use again.
