Computer case Aigo Rainbow 1

Computer case Aigo Rainbow 1

Ref: 5905316140103

Aigo Rainbow 1 computer case
The Aigo Rainbow 1 computer case will let you build the computer of your dreams. It offers several useful ports, including USB2.0 and USB3.0, and allows you to mount a 120mm fan. It is compatible with various motherboard standards and offers space for 7 expansion cards. What's more, the product stands out not only for its functionality, but also for its stylish design - the RGB backlighting on the front panel gives it a unique character.

Many interesting possibilities
Now you can easily create for yourself a computer at which you will enjoy working. The case allows you to mount 2 HDDs and 2 SSDs, and lets you install CPU cooling up to 160mm high and a graphics card up to 310mm long. It is also compatible with ATX, Micro-ATX and Mini-ITX motherboard standards. The case also offers space for a 120mm fan - don't worry about your hardware overheating!

Unique design
Do you want your computer not only to work efficiently, but also to look great? Rainbow 1 case will be perfect for you! Its front panel is equipped with RGB backlighting, the style of which you can customize to your liking, choosing from the available effects. The combination of black and colored light will give you a great visual effect! The side panel of the case is made of plastic.

Even more comfortable work

The manufacturer has taken care to make the work with the finished computer as comfortable as possible. The Rainbow 1 case is equipped with several key ports - including 2 USB2.0 ports and a USB3.0 port for fast data transfer - so you can transfer files quickly. There are also 7 expansion card slots for you to expand your setup as you wish.
