Gaming Keyboard Havit KB878L RGB (black)

Ref: 6939119046088

Havit KB878L gaming keyboard

Are you looking for a reliable gaming keyboard that will perform well during even the most dynamic gameplay? The KB878L model will be an excellent choice! It is equipped with 104 keys and supports 19-key Key Rollover. It also allows you to lock the Windows key. The device is also distinguished by its colorful backlighting and ergonomic design.

Built for dynamic gameplay

The KB878L keyboard will surprise you with its smooth, reliable operation. Thanks to professional switches, it provides lightning-fast response - now you can easily defeat any opponent and show who's boss. The device is also extremely durable - the life of its keys reaches 8 million presses.

The perfect choice for gamers

Make your gameplay easier and gain an advantage right from the start. The KB878L keyboard allows you to lock the Windows key - you no longer have to worry about accidentally pressing it, leaving you out of the game and losing any chance of victory. The device also supports 19-key Key Rollover. So you can easily perform complex combinations and press several keys simultaneously without the risk of conflict.

For your comfort

The KB878L is an excellent option for people who spend a lot of time at the computer. Thanks to its ergonomic design, it provides unparalleled comfort and allows you to forget about wrist pain, discomfort or fatigue. The keyboard is also distinguished by its non-slip surface, which guarantees even greater comfort while working and playing games.

RGB backlighting

The KB878L keyboard impresses not only with its functionality, but also with its modern, stylish design. It is equipped with colorful backlighting that will allow you to create a fantastic atmosphere in your room. You can also adjust its character to your preferences. You can choose between constant and pulsating light, and there is also the possibility to adjust its brightness. Check which setting you like best!

Even more convenient operation

Want to make your computer work even easier? The KB878L keyboard will not disappoint you! The device is equipped with several multimedia buttons, which allow you, among other things, to quickly stop or resume playback, switch a song or go to your email inbox. In addition, with the appropriate key combinations you can, for example, adjust the volume or turn on the calculator.
