Ref: 6941237198969

Car charger Joyroom JR-CL20, 2x USB + 2x Lightning, 57W + Lightning cable (black)

Joyroom JR-CL20 car charger, 2x USB + 2x Lightning + Lightning cable (black)

Joyroom car charger is an essential accessory for every car! It has a maximum power of 57 watts and supports PD, QC, AFC and FCP fast charging. It has a built-in Lightning cable and 3 USB ports (1x USB-C, 2x USB), which allow you to charge 4 devices at the same time. It features wide compatibility and fits most vehicles with a cigarette lighter socket. In addition, the colorful backlighting will make it easier to connect your devices to the charger in the dark.

Fast charging technology

The JR-CL19 supports Power Delivery 3.0, Quick Charge 3.0, Samsung AFC and Huawei FCP fast charging protocols. In as little as 30 minutes, you'll charge your iPhone 13 Pro to 85% or Samsung S22 to 80%. What's more, the charger allows you to power up to 4 devices simultaneously - it has 2 USB ports, a built-in Lightning cable and a USB-C port!

Built-in cable

You can forget about eternally tangled cables! The car charger is equipped with a built-in Lightning cable. Thanks to the spiral design, you will easily keep your car in order. In addition, the cable can extend up to 1.6 meters. From now on you will always have a cable at hand.

High level of safety

The intelligent system adjusts the voltage to the connected device and its charge level. As the phone gets closer and closer to full battery charge (above 80%), the charging speed automatically slows down. This solution effectively protects the equipment from overcharging and helps save energy.
