

Car Charger Acefast B8, 3x USB + USB-C, 90W (black)

Car Charger Acefast B8, 3x USB + USB-C, 90W (black)

Ref: 6974316281078

Acefast B8 car charger

Are you looking for a powerful car charger to renew the power of many different devices at one time? The Acefast B8 will meet your expectations. The product is equipped with three USB-A ports and one USB-C port, plus it has a long cable (90 cm) that allows people in the back seats to charge their devices. The power of the charger is 90 watts, the advantage is also its wide compatibility with fast charging protocols and LED display.

Charge up to 4 devices simultaneously

Do you often travel with the whole family? Or do you use many different devices? The Acefast B8 car charger will work in any situation, as it features a hub with three USB-A ports and one USB-C port, and allows you to charge up to 4 devices simultaneously. The product will quickly and safely renew the energy of your smartphone, speaker or headphones, and the 90 cm long cable will allow convenient operation from the rear seat. The power of the charger reaches 90 watts.

Wide compatibility

The Acefast B8 car charger is compatible with a number of fast charging protocols, so it will renew the energy of many devices in a short time. Among others, the B8 is compatible with QC2.0, QC3.0, AFC, FCP, SCP and many others. Also noteworthy is the compatibility with DC 12V-24V input voltage - you can use the charger in your car, SUV or truck without worry.

Functional hub - convenient charging

The hub has a practical 3M sticker with which you can attach it to your seat, armrest or dashboard. Importantly, if necessary, you will dismantle the product without worrying about damaging the vehicle. Another advantage is the 90 cm long cable and the digital display, thanks to which you can monitor the charging parameters in real time.

Multi-level protection

Charge your devices with the charger from Acefast and don't worry about the safety of the connected equipment. B8 has protection against overheating, overcharging, overvoltage or overcurrent, moreover, the charger is made of fireproof material and guarantees efficient heat dissipation.
