

Smart Switch WiFi + RF 433 Sonoff T1 EU TX (2-channel)

Ref: 6920075725315

Smart Switch WiFi + RF 433 Sonoff T1 EU TX (2-channel)

Smart switch

Sonoff TX is a touch and smart light switch. It can be operated using an app via WiFi or classically, by touch. You can turn on the light in the room of your choice at home, no matter where you are. Made of high-quality materials, such as heat-resistant ABS and tempered glass, it ensures safety and blends in perfectly with any room. The gentle backlighting of the switch, subtly enhances its design and makes it visible at night.

Control for all household members

Using the app, you can easily share the ability to control the lighting with other users.

Operation

Users can remotely operate connected devices via the free eWeLink app available on iOS and Android platforms. Touch and remote control (433MHz) operation is also possible. Thanks to the network connection, device status synchronization is done instantly, so the app always displays up-to-date data. This allows us to maintain full control over excessive power consumption in our home.

Smart control

You can set your own time schedules to automatically turn appliances on/off at a certain time or after a certain time.

Mobile control

With the ability to control your lights via an app, you can easily turn on or off the lights in your home while you are away. The app is very easy to use, allowing you to select a specific switch. You no longer have to worry about the light being left on.
