

## Rotary phone stand Dudao F15 (black)

Rotary phone stand Dudao F15 (black)

Ref: 6973687241599

### Rotating phone stand

Create spectacular shots without limits. The rotating phone stand offers face and object tracking modes. You can use it in many ways - whether you're broadcasting live on social media or holding an online conference. It rotates 360 degrees and allows you to adjust the tilt angle. The carefully considered design ensures stability.

### Face and object tracking

The cradle is equipped with intelligent object tracking, which makes the camera automatically track a designated object. It also has a face recognition and tracking function, so the stand will follow your face even when you move.

### Stable shots in all conditions

The stand's base guarantees reliable stability and is resistant to any shocks. Set the stand on a flat surface, mount your phone on it and create stunning shots in almost any conditions. What's more, the product allows you to take photos automatically - all you have to do is get acquainted!

### Use it the way you want

The F15 rotates 360°, so you can make sure you're always within its reach. You can also adjust its angle by 37° both up and down. Want

to adjust it even further to suit your needs? Choose between landscape or portrait mode.

#### Many possible applications

The rotating stand will be perfect for a variety of situations. Among other things, you will use it when recording video for your social media - it is compatible with most popular social networks. It will also come in handy during video conferencing at work or live broadcasting. Your possibilities are endless!
