

## Car holder Dudao F2Pro for the air vent (black)

Ref: 6973687243227

Car holder Dudao F2Pro for the air vent (black)

Car holder for phone on the windshield grille

The practical Dudao F2 Pro car mount will make it easier for you to use navigation while driving your car. You can easily mount it on the ventilation grille. It allows 360-degree adjustment, and the automatic mounting clamps automatically adjust to the width of your smartphone. Thanks to its well-thought-out design, you don't have to worry about your phone falling out of the mount or being damaged.

Hassle-free operation of your phone

Conveniently use navigation or answer calls while traveling by car! The holder allows you to operate your smartphone with one hand. It also has a 360-degree adjustment function of the holder, so you can easily adjust the position or tilt of your phone to suit your needs.

Specially designed design

The product ensures the safety of your phone. The carefully thought-out triangle-shaped design stably holds your device while driving a car - perfect even on a bumpy road! In addition, the cut-out charging port allows you to conveniently connect your smartphone for charging, without removing it from the holder.

Easy installation

Mounting the holder won't cause you any problem - you can easily attach it to the ventilation grille. After that, all you have to do is insert

your device into it, and the jaws will close automatically. The holder does not cover the air outlet or limit your visibility while driving in any way.
