Wireless inductive charger Choetech T511-S, 10W (black)

Choetech 10W wireless induction charger

Want to conveniently charge your phone without having to plug in a cable? Quickly and conveniently charge your smartphone with the Choetech wireless induction charger! You'll forget about the long wait until your device is ready to use, as charging is up to 1.4x faster, with the added bonus of wide compatibility with popular devices. Thanks to its well-thought-out design, the phone will hold stably in place. Numerous safety features make the use of the induction charger completely safe.

Wide compatibility

10 W fast charging is possible with Galaxy S9, S9 Plus, Galaxy S8, S8 Plus, Galaxy Note 8, Galaxy Note 9, Galaxy S7, Galaxy S7 Edge, Galaxy Note 5, Galaxy S6 Edge Plus. 7.5W charging can be done with iPhone XS, XR, XS Max, iPhone X, 8, 8 Plus. Fast charging requires a QC2.0/3.0 adapter, while 5 W charging is possible with all devices that meet the Qi standard. As you can see - the possibilities are indeed many!

Safety of use

Equipped with a Micro-USB port, the Choetech inductive charger is Qi certified and has protection against radiation, overcurrent, overheating, overvoltage and short circuit. In addition, it controls temperature and detects foreign objects, so its use is completely safe. When charging the device, it is advisable to remove any metal or magnetic components. The phone's case does not interfere with the

charging process if its thickness does not exceed 5 mm.

Thoughtful design

Choetech's inductive charger features a thin and compact design. Thanks to the silicone non-slip mat and silicone rubber pads, you don't have to worry about the safety of your phone - it will stably stay in place. The charger's built-in LED indicator will let you know the status of your charged device.
