

### USB-C to Display Port cable Choetech XCP-1801BK, unidirectional

Ref: 6971824971569

USB-C to Display Port cable Choetech XCP-1801BK, unidirectional, 4K, 1.8m (black)

Choetech USB-C to Display cable, 1.8m (black)

Choetech USB-C to Display cable provides 4K resolution image, so you can enjoy excellent quality of watching matches or movies. In addition, gold-plated connectors contribute to high performance and good conductivity. What's more, special latches keep the cable stable in the port, and thanks to wide compatibility you can connect it to most devices.

#### High picture quality

Watch your favorite movies in stunning quality! Choetech XCP-1801 offers 4K \* 2K (3840 \* 2160) @ 60Hz resolution, so the picture is clear and the sound is crystal clear. What's more, the refresh rate is 60Hz, so you don't have to worry about distortion or lag. The product is also backward compatible with 1080p.

#### Seamless connection

The cable is equipped with a USB-C port, which is compatible with Thunderbolt 3. You will successfully connect it to a computer with the aforementioned port and a display with DisplayPort input. Thus, the product will work with MacBook 2017 Pro/2016/2015, Google Chromebook, HP EliteBook Folio G1, Asus ZenBook UX390UAK, Samsung Galaxy Note 8/S8/S8 Plus, HTC U11, etc.
