2-Cup Duo Coffee Maker

Small and handy, the 2-Cup Duo coffee maker is a great solution for coffee lovers who don't have much space in their kitchen. With it you can quickly brew coffee for 2 people - it even comes with 2 matching cups. Without wasting energy and water - exactly as much as you need!

Easy to use

Coffee preparation will be fabulously enjoyable. The 2-Cup duo coffee maker is easy to clean, and the permanent filter will save you money on paper filters - which will also reduce the amount of garbage produced! Thanks to the built-in water meter, you'll always pour enough water and won't have to worry about excess water.

Economical

The coffee maker is equipped with illuminated buttons that will allow you to brew delicious coffee, even when it's still dark and you're getting ready for work. It prepares coffee with 420 to 500 watts of power, and when you forget to turn it off in a hurry, it will do it for you.
