Pour-over coffee maker Techwood TCA-846 (black)

Ref: 3760115717145

Techwood TCA-846 pour-over coffee maker

Enjoy a cup of aromatic coffee in the morning with the Techwood TCA-846. The pour-over coffee maker has a 750 ml tank, which translates into about 6 cups of hot beverage. It's also equipped with a permanent filter, so you can use it again and again. It automatically shuts off after 30 minutes and has overheat protection, while the LCD display will provide you with information on the machine's operation.

User-friendly

The Techwood pour-over coffee maker is equipped with a 750 ml reservoir, which will make 6 cups of coffee. Moreover, it has a reusable filter that you can easily remove and clean. In addition, a special indicator will inform you about the remaining amount of water.

Tailored to your needs

The device offers a delayed start function, so you can schedule your coffee to brew at a specific time - you can enter the settings using the buttons. In addition, the device maintains the temperature, so you can be sure that your coffee will always be hot and aromatic. And the anti-drip system allows you to pour the coffee into the cup before the brewing is finished and prevents dripping.

Convenience and safety of use

The Techwood TCA-846 has a small LCD display that will provide you with information on the operation of the machine. In addition, the buttons on both sides allow you to customize the operation of the machine. What's more, the coffee maker will automatically turn off after 30 minutes and has overheat protection, so you can use it safely.
