

Vibrant Facial Cleaning Brush Liberex CP006221 (White)

Ref: 6931446900798

Vibrant Facial Cleaning Brush Liberex CP006221 (White)

Liberex Vibrant Facial Cleaning Brush CP006221 (White)

Take care of comprehensive facial care with the Liberex brush. It is equipped with soft DuPont bristles that will effectively but gently remove dead skin, impurities and blackheads. It offers 2 speed modes and is IPX7 water-resistant. In addition, you will find 2 brush heads in the set: for sensitive skin and normal skin.

Effectively gets rid of impurities

Cleansing the skin with the Liberex brush is 6 times more effective than regular face washing. The device is equipped with DuPont bristles that enable thorough cleansing. In addition, the brush head is designed so that dirt does not get between the bristles. This solution will make it easier to keep the toothbrush clean and prevent the growth of bacteria.

2 speed levels

The device offers 2 speed levels that you can use depending on the time of day. In the morning, use the low speed level. The brush will gently cleanse your facial skin and stimulate it. On the other hand, in the evening, a higher speed level will work well. It will allow you to cleanse your skin thoroughly, removing makeup residue and sebum.

Convenient operation

Using the brush is simple and convenient, so you won't have any problems. The device is equipped with a single button that will allow you to control the RF100. With its help you will turn the device on/off or change the speed level. In addition, a smart timer will remind you every 20 seconds to change the cleaned area. Then the toothbrush will automatically turn off after 2 minutes.

User-friendly

The Liberex toothbrush is fully waterproof at IPX7 level. This means you can also use it in the shower without worry. In addition, the device's durable battery offers 1.2 hours of uninterrupted use. You charge the device with a micro USB cable (included). It only takes about 2.5 h for the product to be ready for use again.
