Delux M912DB Wireless Mouse

If you're looking for a wireless mouse that works well in a variety of applications, the Delux M912DB is a great choice. It allows 5-position resolution adjustment up to 4,000DPI and has been equipped with a small OLED screen that provides convenient access to the most important information about its operation. The device also offers several connectivity options - via USB cable or wirelessly, either via Bluetooth or in the 2.4G band. The mouse is also distinguished by its durable design and long operating time.

Built-in OLED display

Enjoy convenient access to all the information you need. The M912DB mouse has a built-in small OLED screen that displays the current connection mode, the selected DPI value and the battery percentage, among other information. You no longer have to wonder when to plug the device in - now all you have to do is take a look!

Ergonomic design

Do you spend a lot of time at the computer? Take care of your comfort! The M912DB mouse features an ergonomic design, so you don't have to worry about fatigue or wrist pain. The device fits well in your hand and is made of high-quality materials, so it is very pleasant to the touch. It is also distinguished by a special support, on which you can comfortably rest your thumb.

Various connection possibilities

The M912DB can connect to your computer in various ways. If you don't want to worry about the battery level, use a USB cable. It is also possible to connect the mouse in the 2.4G band or via Bluetooth. What's more, when the M912DB is working wirelessly, you can pair it with 3 devices at the same time (1x 2.4G, 2x Bluetooth) and switch freely between them.

5-step DPI adjustment

Work, complex graphic designs or maybe dynamic gameplay? The M912DB mouse will work well in almost any situation! The device allows you to adjust the resolution in the range of 800 / 1200 / 1600 / 2400 / 4000DPI. So you can adjust its performance to your needs and enjoy your dream speed, smoothness and precision.

Even more possibilities

Want to customize your mouse even better? Take advantage of the dedicated software! With its help, you can, for example, set the functions of selected buttons, indicate the time after which the device will go into standby mode, adjust the DPI, adjust certain parameters or edit macros. Check out what else is waiting for you!
