Ref: 6941788855281

Orico Hub Adapter USB to 2x USB 3.0 + USB-C, 5 Gbps, 0.15m (Black)

Adapter USB Hub to 2x USB 3.0 + USB-C Orico PWC2U-U3-015-BK-EP
Does your computer not have enough ports? The Orico PWC2U-U3-015-BK-EP hub will help you increase its capabilities! The device is equipped with 3 ports (2x USB-A, 1x USB-C) and allows you to transfer files at speeds of up to 5Gbps. You will successfully connect to it, for example, a hard drive, mouse or keyboard. The adapter is also extremely durable - it will serve you well for a long time.

Fast file transfer
The hub is distinguished by its USB3.0 interface, so it will allow you to transfer the files you need in no time. It provides transmission speeds of up to 5Gbps (500MB/s)! This means you no longer have to wait too long for your photos, documents, videos or presentations to reach their destination. The device is also backward compatible with the USB2.0 standard.

As many as 3 available ports
Increase the capabilities of your computer. The adapter is equipped with 3 USB ports (2x USB-A, 1x USB-C), to which you can connect, for example, a memory stick, mouse or keyboard. The advanced chip ensures a stable connection between devices - forget about delays!

High quality workmanship
The adapter is made of durable ABS plastic, which is scratch-resistant. The tin-plated copper cable ensures efficient, reliable

performance, and the durable connector stands out for its low susceptibility to wear and tear. The hub also has a built-in light indicator that will provide you with information on its operation status. What's more, the adapter's USB ports have received additional protection against damage.

Wide compatibility
Don't be afraid of compatibility problems. The hub easily works with such devices as, for example, a USB drive, mouse, keyboard, webcam, memory card reader, desktop fan or printer. Moreover, the product works perfectly with Windows, Linux and Mac OS operating systems. In addition, thanks to the Plug&Play system, all you need to do is connect it to your computer - no need to install any drivers!
