

Interactive Pet Ball Cheerble Ball PE (Green)

Interactive Pet Ball Cheerble Ball PE (Green)

Ref: 6971883200099

Cheerble Ball PE Interactive Pet Ball (Green).

The Cheerble interactive ball will be the perfect companion for your pet in your absence! The toy turns on automatically - just one touch. It offers 3 modes of operation, so you will successfully adjust its action to your pet. What's more, it has an intelligent obstacle avoidance sensor and is IP65 water resistant. It is made of durable and wear-resistant material that is safe for pets.

Various modes of operation

The ball is equipped with up to 3 modes - normal, gentle or passive, so you can easily adjust its operation to your pet's needs. The colored backlighting of the button will adequately inform you of the selected mode. Whether your furry one is lazy or energetic, there will always be a suitable mode for him!

Intelligent canine companion

Enter the balance between entertainment and relaxation! The interactive toy jumps and rotates, encouraging your pet to play. Then, after 10 minutes, it will automatically turn off for 30 minutes, going into Sleep mode. Your pet can easily activate the ball at any time - just touch it!

Carefully thought-out design

The Cheerble ball is equipped with an innovative automatic obstacle avoidance system, so you don't have to worry about it accidentally getting stuck under furniture. It's also IP65 water resistant, so you can easily take it to the water while walking your dog or wash it under running water if necessary.

Reliable battery

The product has a durable 300 mAh battery. It allows up to 4 hours of playtime! You will renew the energy with the USB cable, which you will find in the set. In turn, the charging itself won't take long - after just about 1 hour your pet will be able to use it for play again.

Safe for pets

It is made of durable TPU and PCU plastic and natural rubber, which is completely safe for pets. The thickness of the coating (5-7 mm) makes the ball last much longer than others, and protects against damage to gums and teeth.
