USB-C to USB-C cable BlitzWolf BW-TC23, with display, 100W, 0.9m (black)

Ref: 5905316140141

BlitzWolf BW-TC23 USB-C to USB-C cable with display, 0.9m (black).

The Blitzwolf BW-TC23 USB-C to USB-C cable will allow you to renew the power in a variety of equipment in a short time, as well as instantly transfer files between devices at speeds of up to 480 Mbps. It offers charging with a maximum power of 100 watts and supports PD 3.0, PPS and QC 3.0 fast charging standards. It is extremely durable and works with most devices equipped with a USB-C port. In addition, it has a built-in display that indicates charging power.

Fast charging and data transfer

The BW-TC23 can instantly charge devices with up to 100 watts of power. In as little as 2.5 hours, it can renew power to 100% on a MacBook Pro 13 or Nintendo Switch console. It also supports PD 3.0, PPS and QC 3.0 fast charging protocols. What's more, the cable also allows data transmission at speeds of up to 480 Mbps.

Wide compatibility

The Blitzwolf cable is distinguished by its wide compatibility. It works with most popular devices that are equipped with a USB-C port. With its help you will renew energy in smartphones, laptops, tablets or powerbanks, among others. You only need one cable to charge multiple devices!

High quality workmanship

The product is made of high-quality materials, which are characterized by durability and wear resistance. The nylon braid is also resistant to abrasion and prevents tangling. In addition, the built-in chip intelligently recognizes the connected device and adjusts the charging parameters to it, which are displayed on a special display.
