Safety Carrying Case PGYTECH for DJI AVATA

Ref: 6970801339019

PGYTECH waterproof case for DJI Avata

The PGYTECH P-36B-020 carrying case allows you to safely store your DJI Avata and accessories for it. It is made of durable EVA and PP materials, so it provides protection against corrosion, water, temperature and shock. In addition, a special valve automatically equalizes the pressure difference.

Dedicated to DJI Avata

The product was designed for the DJI Avata and its accessories. In addition to the drone, you can conveniently store additional batteries, goggles, control camera, etc. in the case. In addition, the EVA plastic interior provides protection from damage, and the compartments have been adjusted to fit the size of your equipment and accessories.

For the safety of your equipment

The PGYTECH case features an IP67 waterproof rating, so you can be sure that your equipment is safe. What's more, it's made of plastic that can withstand temperatures ranging from -25°C to +60°C. It can also stay at -40 to +80°C for a short time. In addition, it has a pressure-balancing valve.
