

## PC Water Cooling Darkflash DA240 LED 2x 120x120 (Black)

Ref: 4710343793311

PC Water Cooling Darkflash DA240 LED 2x 120x120 (Black)

Computer water cooling DA240 LED 2x 120x120 (black)

Take care of keeping your computer's CPU temperature at the right level. Darkflash DA240 water cooling is equipped with 2 powerful fans and allows efficient heat dissipation. It is also distinguished by modern LED backlighting and quiet operation. What's more, the device is compatible with Intel and AMD processors, and you won't have any problems installing it.

Efficient cooling

The cooling is equipped with 2 efficient fans, which use a high-end Hydraulic Bearing type and operate at speeds reaching 1800rpm. This makes them stand out for their incredible efficiency. You also don't have to worry about annoying noise. Thanks to the technological solutions used, the DA240 works extremely quietly, ensuring you peace of mind while working or playing games.

Effective heat dissipation

The DA240 uses a specially designed water channel and a copper base, which translates into effective heat dissipation. It is also equipped with a powerful water pump and specially designed fins that increase its area of efficiency. All this makes it easy for the cooling to keep the CPU temperature at an optimal level.

Improved design

Bet on the highest quality workmanship. The cooling case was created from durable ABS plastic, which provides it with impressive resistance to damage and wear. What's more, the device's tubes were covered with a durable woven material. As a result, they guarantee the safety of use and look truly outstanding. The cooling is also distinguished by stylish LED backlighting.

#### Hassle-free installation

Forget about complicated, time-consuming installation and compatibility problems. The DA240 cooling is a perfect fit for selected Intel and AMD processor models. It's also extremely easy to install - you'll be able to handle it without any problems. What's more, you'll find the necessary mounting kits in the package.

#### In the box

Water cooling

INTEL & AMD mounting kit

Mounting screws

Thermal conductive paste

Applicator

User manual

Brand

Darkflash

Model

DA240

Cooling type

Water

Color

Black

Number of fans

2

Fan dimensions

120x120x25mm

Fan size

120mm

Bearing type

Hydraulic Bearing (mostly)

Fan speed

900-1800RPM

Airflow

76.8CFM (max.)

Maximum noise level

35.2dBA

Dimensions of the radiator

277x120x27mm

Heat sink material

Aluminum

Dimensions of the water block

80.3x71x47mm

Pump speed

Approx. 2500RPM

Maximum noise level of the pump

30dBA

Supply voltage

12V

Lifetime

Approx. 30,000h

Illumination

LED

Compatibility

Intel: LGA 2066 / 2011 (v3) / 755 / 115x / 1366 / 1200;AMD: AM4 / AM3(+)  
/ AM2(+)  
/ FM2 (+)  
/ FM1;

TDP

230 W
